

RAIDS ON LONDON FIRE ARE GEARED TO A.F.

Great Attack Made On Port Of Bremen By British Bombers

One Of Most Concentrated Raids Of War Made As Big Quantities Of Bombs Are Dropped On Important Area

LONDON, Jan. 2.—(AP)—Royal Air Force planes dropped 20,000 incendiary bombs and a load of high explosives in their 3½ hour attack on the important German seaport of Bremen last night, the air ministry reported today.

Amplifying an earlier communique, the ministry's news service said that an hour after the attack began fires in the long procession of British bombers could see the glow of Bremen's fires when they were 120 miles away.

By WALLACE CARROLL

LONDON, Jan. 2.—(BUP)—It was reported today that big formations of Royal Air Force bombing planes rained incendiary and high explosive bombs on Bremen during the night in retaliation for Sunday night's fire raid on London's ancient "city" area.

Great fires were reported burning in the town as a result of one of the most concentrated British raids on a German city.

The Royal Air Force "paid the Germans back in their own coin" for the fire raid, the press association reported, and dropped big quantities of fire and explosive bombs on the important Bremen area.

In addition to the Bremen raid, Royal Air Force planes, opening their new year offensive program, attacked numerous submarine bases, invasion ports and other targets in German and German-occupied territory.

It was understood that the greater part of the raiding planes centered on Bremen. It is there that the Focke-Wulf factory is reported to be turning out a new type of multi-engine fighter. As well as the Condor planes which have been raiding British shipping in the Atlantic.

It was the first raid on Bremen in two weeks. The city has been bombed more than fifty times since the start of aerial warfare. In addition, the RAF headquarters at Cairo yesterday announced that during the night of December 30 and 31 on Italian naval bases at Taranto and Naples and on the Albanian port of Valona, British planes also bombed the Bardia area in Libya and Italian bases and troops in Italian East Africa.

BERLIN, Jan. 2.—(AP)—D. N. B. German news agency, admitted today three factories were hit by bombs in British air raids on the main points during the night.

It claimed there was no damage to military objectives. Exact points bombed were not given, but a British announcement said the main target was Bremen.

The British planes, the agency acknowledged, penetrated north and west German defenses. Night attacks on the planes of the German air force shot down one of the invaders, it claimed.

WILLED GERMAN Bombs also were reported dropped last night near Drogueda, in County Sligo, 26 miles north of Dublin, where the largest victory in Ireland, carrying the North, followed over the river Bore.

A series of bombs fell on Duleck, near the Drogueda area, a base for movement of cattle to Liverpool and the center of the Irish beef industry.

The Drogueda area is a base for the center of the Irish beef industry, where the largest victory in Ireland, carrying the North, followed over the river Bore.

Former Statutory Debt Limit Passed By United States

WASHINGTON, Jan. 2.—(AP)—The 30th Senate treasury and the public debt bill passed today at the center of the Irish beef industry.

The new debt limit, voted Jan. 2, is \$40,000,000,000. Treasury Secretary Morgenthau already has spoken of a new debt limit of \$40,000,000,000, because of the large debt assumed in the new year.

He said the new debt limit was "being extended more and more."

LONDON HEARS VICHY BREAKS WITH GERMANY

Unconfirmed Report Says Negotiations Broken Off—Fleet Moves

LONDON, Jan. 2.—(CP)—A Reuters news item said that from Lisbon said Wednesday that Premier Petain's Vichy government has broken off negotiations with Germany. Other reports circulating in London said the French fleet has been moved from Toulon to Africa. None of these reports could be confirmed.

Authoritative sources in London said that "all reports which state that the French fleet should be treated with reserve."

Other sources claimed that "nothing is known here of the report that Vichy-German negotiations have been broken off."

WARSHIPS MOVED The Daily Express in a Lisbon dispatch said Premier Petain is rumored to have ordered the fleet to remain loyal to Vichy to the "African port, in preparation for the sudden ultimatum from Hitler to the government at Vichy."

The newspaper added that when Petain visited Toulon some weeks ago he found the Strasbourg in harbor with a dozen destroyers and torpedo boats but that today the Strasbourg, only battleship left in the Vichy fleet, and two destroyers, also remain in that port.

Informed sources observed that if such action was taken it is directly against the armistice terms which Germany would cause, since Vichy may not move its ships without the permission from the armistice commission. Those sources said that if the fleet moved without permission, the action would be a "treasonable act."

TRUMP CARDS The fleet has been one of the trump cards held by Petain and one reason why Hitler cannot just take Vichy too hard. An additional talking point for Petain has been the presence of the French fleet in North Africa which has not been fully mobilized.

Negotiations looking toward collaboration of the Petain government with Germany have been in a virtual stalemate since Dec. 14.

U.S. Officials To Confer In Ottawa On Seaway Plans

WASHINGTON, Jan. 2.—(AP)—Adolf A. Berle, assistant secretary of state for the United States government and John D. Hickerson, vice-department Canadian expert, are to leave today for Ottawa for negotiations on the proposed St. Lawrence seaway and power project which may lead to final agreement between the United States and Canadian governments.

Leland Glave, chairman of the federal power commission, General Thomas Robinson, assistant chief of operations at the St. Lawrence New York power authority, were due in Ottawa today.

NEW YORK, Jan. 2.—(BUP)—British Prime Minister Winston Churchill was designated today as "the man of the year" for 1940 by the American magazine "Time."

This designation is given annually to the man who has effected the most dramatic change in the course of history in the past 12 months.

(It will be noted that Adolf Hitler was named in 1939 as a dis-honorable mention as a history change.)

King Sends Thanks To Polish Premier: Praises Soldiers

LONDON, Jan. 2.—(CP)—Gen. Wladyslaw Sikorski, Polish prime minister and commander in chief, has received the following message from King George in reply to the Polish leader's New Year greetings:

"I am deeply touched by your kind and wise. Please convey my best wishes for you and your gallant forces, whose valuable contribution to our mutual struggle I always follow with the keenest interest."

Gen. Sikorski's reply to the king was:

"I am deeply touched by your kind and wise. Please convey my best wishes for you and your gallant forces, whose valuable contribution to our mutual struggle I always follow with the keenest interest."

Germans To Fight Fascists' Battles In Mediterranean

Luftwaffe Will Aid Bugged-Down Italian Military Machine In Fighting Areas Of Albania and Africa

NEW YORK, Jan. 2.—(BUP)—Italy for the first time today officially admitted that her Axis partner, Germany, is diverting part of the large Nazi air force to aid the bugged-down Fascist military machine in Albania and North Africa.

How large a proportion of the Nazi Luftwaffe will be diverted to the Mediterranean war theatre was not indicated. However, Gen. Francesco Pricolo, Italian under-secretary for air, announced that German air squadrons will fight for Italy in the Mediterranean basin.

He also announced that the Italian air units which have been co-operating with the Germans in the bombardment of Greece, and which have been called home to reinforce the Italians on their fighting fronts in Albania and Africa.

Only one unit of Fascist fighter planes will remain with the German air force on the English channel, he said, the communications.

Pricolo's announcement was the first official confirmation of un-official rumors and reports which have circulated in neutral and Balkan capitals that Germany was preparing to give substantial assistance to her partner.

Previously, Italian spokesmen had indicated that German transport planes and crews had aided in bringing Italian reinforcements to Albania and that some Luftwaffe planes "might" be fighting against Greece. No sign of Nazi planes on the front, however, has been noted by the British press.

Reports from the western desert suggested the British army might not wait to leave Bardia before striking at a second big Italian base, Tobruk, west of Bardia and 60 miles from the Egyptian frontier. Bardia has been hurriedly evacuated.

TRADE OF ROAD TO ALASKA FOR WAR AND URGED

Virginia Representative Will Make Proposal To U.S. Committee

WASHINGTON, Jan. 2.—(AP)—An outright trade of United States munitions and war supplies to Britain in return for a right-of-way for a military highway through Canada to Alaska was proposed today by Representative Andrew E. Dixon (Dem.-Va.).

Dixon, member of the house military affairs committee, said at an interview he would offer the suggestion at the first meeting of the committee this year.

His plan, which he said has been approved by Speaker Sam Rayburn, would call for a 1,000-foot wide right-of-way in the United States direct pass between Seattle and Alaska.

"If we find this military route we could get troops up there in a hurry if we had to, and that might be just what we need," he said. "The right-of-way would be simply wide to provide emergency landing fields, including flying to the Alaskan base."

Dixon added that Rayburn told him he would discuss the proposition with President Roosevelt.

Construction of a military national highway commission will be held in Washington this month to decide on means of financing the proposed \$25,000,000 road.

Representative Dixon said the construction should be financed through the national defense program.

"It is a much more vital factor to national defense than the St. Lawrence waterway," he said.

Germany Claims 92,400,000 Pounds Of Bombs Lost

BERLIN, Jan. 2.—(AP)—The German high command asserted today the Nazi air force had dropped 23 every pound of bombs on Britain for every pound lost.

The high command reported it had lost about 23,000,000 pounds of bombs and 3,320,000 pounds of incendiary bombs.

The figures were presented in a review of the year 1940, which was launched by the British "munitions industry centers alone."

The review said the Midlands were the chief target.

F.D.R. SPEECH DECLARATION OF WAR IS CLAIM

WASHINGTON, Jan. 2.—(AP)—Representative E. C. Clegg (Dem.-Ga.) told the United States House of Representatives today that President Roosevelt's Sunday night address was "in effect a declaration of war."

In the Senate, Senator Charles McNary (Dem.-Or.) appeared for the first time to "keep England aloof."

He declared Hitler's "making war on us economically, his making war on us politically."

England is the only barrier against the raging flood of war," McNary said.

He added, however, he was not thinking of America going to war.

He said his colleagues that further assistance to Britain meant "a declaration of war."

Representative Hamilton Fish (Rep.-N.Y.) however, said he disagreed with McNary's statement.

"I want that I think that I agree with McNary," he said.

Empire's Arsenal Canada Is Called To Sacrifice, Too

War Stimulus To Nation's Economy But It
Demands Every Dollar of Resources
For Victory — MacKinnon

Cheap money in abundant supply is an essential factor in our war effort, and all Canadians are urged, as a part of their personal contribution to the war, to "save till it hurts" and to lend their current savings to the country at the current rates of interest. If we are worthy of our forefathers who laid the foundations of the Dominion in these northern wilds, if we are worthy of our kinsmen and friends across the Atlantic who are fighting on the right with indomitable courage against those who would reduce Europe to slavery, we shall make whatever sacrifices are necessary to win the war.

—Trade Minister MacKinnon.

Written for the Canadian Press
By HON. JAMES A. MACKINNON
Minister of Trade and Commerce

In Canada the outstanding phenomenon of 1940 has been the transformation of the whole economy of the nation from a peacetime basis to meet the compelling necessities of war. Such a process cannot be completed all at once, but in 1940 the industrial activity of the country has been on a steadily rising scale, and in 1941 the Dominion will reach a full wartime economy, going "all out" in order to give the maximum of support to the Empire in the conflict in which we are engaged for the freedom of the world and the survival of the democracies.

The results of our industrial war effort are already being felt in the actual theatres of war. At the end of 1940 we were told that Canadian mechanized transport, carried to Egypt under the protection of the British navy, has been a vital factor in the defeat of the Italian invasion of Egypt. This, though it is only the first fruits—the war effort of the country's industry—is a favorable omen for the result of larger conflicts that are still to come in a war that will require a maximum of mechanized transport and of munitions of war.

Canada, indeed, is being trained into a vast arsenal of Empire, where our equipment is being produced on an enormous and increasing scale in factories that are exempt from the risks of aerial bombing. It is evident that both Canada and Britain are actively availing themselves of these facilities, since the great total of orders for war stores placed by our department of Munitions and Supply up to the end of November, 1940, amounted to \$875,000,000, including \$692,000,000 on the American account and \$183,000,000 on British account. In addition, capital commitments for plant extensions and construction of new plants up to the same date amount to no less than \$252,000,000.

The effects of this enormous stimulus to the economic activities of Canada are evident in every aspect of our national life. Perhaps the most all-embracing of these is employment.

TOTAL WAGE-EARNERS

Official estimates indicate that the total number of wage-earners in employment increased by some 200,000 between September, 1939, and the same month of 1940, more than at least 50,000 have been added. At Nov. 1, 1940, the official index number of employment reached the highest point ever recorded, at 129.2 as compared with 100 Sept. 1, 1929, at the outbreak of the war. In manufacturing, where as a whole, five workers were employed at the last date for every four employed at the earlier.

Sixty-one per cent more workers were employed in the iron and steel group of industries at the later date than at the earlier, while in the shipbuilding industry the increase in employment was no less than 270 per cent. These results have been achieved in spite of the closing of some 200,000 men on active service, and the conclusion may be drawn that Canada is reaching a position of "full employment." In these circumstances special attention is being given to the problems of training recruits for our industry and bringing female labor into certain types of munitions industries.

TO WIN THE WAR

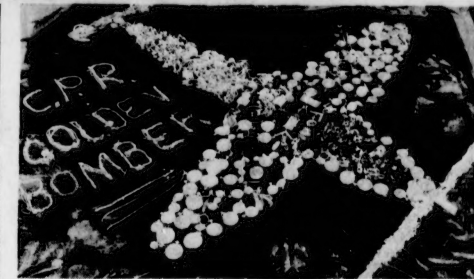

The national registration, indeed, suggests that the efforts of all able-bodied Canadians of both sexes may yet be required for the winning of the war, and in that great stock-taking of our people every effort has been made to determine the fields of work which every individual may be most useful. The National Resources Mobilization Act of 1940 has empowered the Government to use every adult Canadian and his or her property wherever in Canada they may be of most effective service to the state.

Increasing employment has naturally resulted in greater production, particularly in these manufacturing industries which are producing war supplies. Thus, comparing the first 10 months of 1940 with the same period of 1939, we find that the production of pig iron has increased 45 per cent, the production of steel ingots 52 per cent and the production of motor vehicles 45 per cent, as compared with a gain of 25½ per cent in the production of manufacturing industries as a whole.

Mineral production is up 12½ per cent and non-ferrous production 23 per cent. Output of electric power, needed in many of our industries, has risen 78 per cent, while daylight saving time is being very generally continued throughout the winter in order to increase the economy of electricity available for industrial purposes. Again, the value of construction contracts awarded has risen to 86 per cent as the result of engineering work and industrial construction required by the war.

COMMERCIAL ESSENTIAL

Commerce with the outside world may not be an absolute necessity for the carrying on of human life, but it is certainly essential to the progress of our civilization and to the progress of our industry.

C.P.R. Employees Turn Jewelry Into Bomber

This "golden bomber," symbol of the effort of Canadian Pacific Railway employees to contribute a modern \$100,000 bomber plane to the Royal Canadian Air Force, shows some of the gold trinkets given by the workers in eastern Canada for this purpose. The wings of the bomber are made of more than 160 watches, the nose 300 wedding rings, fertility and memento rings, the cockpit of Masonic Jewels, the propeller of watch chains and necklaces which also spell out the words: "Passage and Fall of our C.P.R. Employees."

By closing their ports to our trade aggravates our already difficult situation. The British Empire and the domination of the world by the overwhelming forces which it has been creating throughout the past seven years. His ruthlessness is clearly indicated by the fact that he is imposing on the subjugated people of Europe—people of the highest culture and civilization. Against this new barbarian invasion, the British Empire, with the moral support of the

United States, stands patently alone as the champion of freedom and democracy. We must win this gigantic struggle, or life will not be worth living for any one who is not a German or even for any German, who has to bow down and worship Hitler.

EVERYTHING NEEDED
This we must carry out with every ounce of our physical strength and every dollar of our resources until final victory. Every Canadian must reduce his personal expenditures to the minimum necessary for the efficient conduct of his personal affairs and place all his surplus dollars at the disposal of the State through purchase of war loans, war savings certificates and war savings stamps. The nation will require every available dollar of its current income to ensure the future of this Dominion as a great democratic community.

If we are worthy of our forefathers who laid the foundations of the Dominion in these northern wilds, if we are worthy of our kinsmen and friends across the Atlantic who are fighting on the right with indomitable courage against those who would reduce Europe to slavery, we shall make whatever sacrifices are necessary to win the war.

What, in the light of the existing situation, is the economic outlook for 1941? In view of the great prospects now under way, the prospects for the immediate future are much more definite than in usually the case at the beginning of a year. I cannot improve upon the words of my colleague, the Minister of Munitions and Supply, in summing up the growing war effort of Canadian industry controlled by his department, in the House of Commons on Nov. 26.

"The next eight months will witness a rapid expansion of employment and consequently increased output of our industry. At the end of that period Canada should be producing the practical maximum of war materials of which Canada is capable. The next eight months will be a testing time for the morale of the Canadian people. I have no doubt that our industry and our men and

women, will justify our confidence in the productive capacity of this great Dominion."

CONVENTY INSURED
At first the Germans came in at 4,000 to 10,000 feet, and we knocked them out of the sky. Now they come in at 15,000 or 20,000 where our searchlights cannot reach them. But we are preparing methods and equipment to deal with them."

Sir Hugh insisted that Coventry had received a terrible smashing, but the injury to the war potential was not at all as great as had been thought. This was true of other bombed cities. The bombs at Coventry had been dropped on parts of the city away from the important factories.

Ordinary commercial gasoline weighs from 5.6 to 5.8 pounds a gallon.

British Air Chief Stirred By Magnificent Courage Of Civilian Population

By THOMAS WATLING
Edmonton Bulletin Ottawa Bureau

OTTAWA, Jan. 2. — The magnificent courage of the civilian population of bombed Britain has stirred Sir Hugh Dowding, British chief marshal of the Royal Air Force, that he very redoubtably overcame him with emotion as he spoke of it in Ottawa the other day.

"I must say a word about the behavior of the civilian population of the people at home in England under the continuous night attacks," he said. "I am in admiration of my countrymen. The patience and fortitude with which they suffer material loss and moral loss affected by the casualties among themselves and their relatives is unbelievable."

"The people in the East End of London—the poorer classes—are the people at home in England under the continuous night attacks," he said. "I am in admiration of my countrymen. The patience and fortitude with which they suffer material loss and moral loss affected by the casualties among themselves and their relatives is unbelievable."

"The people in the East End of London—the poorer classes—are the people at home in England under the continuous night attacks," he said. "I am in admiration of my countrymen. FARM COSTS BUT GASOLINE ARE HIGHER COSTS LESS

The average cost of things
farmers buy is now
42% higher than in 1914

The cost of Farm Gasoline
is 35% less than in
1914

Figures quoted recently in the House of Commons at Ottawa show that the average cost of 147 commodities required by the western farmer has risen 42 per cent since the beginning of the first World War.

Groceries have advanced 22 per cent; clothing has gone up 33 per cent; household equipment has increased 66 per cent; and municipal taxes 74 per cent.

Since 1914 the average price of farm gasoline at Winnipeg, Regina and Calgary has been reduced 35 per cent—(gasoline tax excluded).

If this gasoline had followed the average price advance of these other commodities the amount of gasoline the western farmer could buy in 1914 for \$1.00 would sell for \$1.42 today. Instead it sells for 65 cents.

Imperial Oil Limited pioneered the distribution and manufacture of gasoline on the Prairies. By efficient operation and by passing on to the consumer the benefit of reduced cost, as enlarged volume and improved methods made cost reductions possible, it has played an important part in the affairs of the western agriculturist.

DO YOU KNOW THAT— Imperial Oil pays more in Canadian Income Taxes than it earns in Canada?

For every dollar that it earned in its Canadian refining and marketing operations during the years 1933-39, Imperial Oil Limited paid out to Canadian governments for income taxes alone \$1.1375.

This was because a great part of Imperial Oil's income was derived from its large operations outside of Canada.

These operations include the Canadian public relations and improve Canada's foreign exchange position. During the five years referred to, Imperial Oil averaged a net profit of only two-fifths (2-5) of one (1) cent for each gallon of product that it manufactured and sold in Canada.

Imperial Oil Limited pioneered the distribution and manufacture of gasoline on the Prairies. By efficient operation and by passing on to the consumer the benefit of reduced cost, as enlarged volume and improved methods made cost reductions possible, it has played an important part in the affairs of the western agriculturist.

Men of Canada's Forces Are Rewarded for Valor In King's Honors List

By D. E. BURRITT

LONDON, Jan. 2.—(CP)—Canadian of the three fighting services were commended in the King's honors list Wednesday night for bravery by sea, land and air. Six airmen from the Dominion were listed in the 17 pages of honors awarded to members of the Royal Air Force, the highest of these being the air force cross which was conferred upon 33-year-old F.I. A. G. A. C. Foster of Saskatoon.

GALLANT ACTS BRING REWARD TO CANADIANS

Deeds of Bravery In
France Are Cited—
Naval Skill

By D. E. BURRITT

LONDON, Jan. 2.—(CP)—The King's honors list Tuesday night rewarded the gallantry of two Canadian naval officers and two non-commissioned officers of the Canadian corps.

The citation for the first of the two naval officers was that of the Hon. William Gordon, captain of the H.M.S. "Crested Hawk," who was commended for his gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland. Captain Gordon was also commended for his gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland.

COMMANDER DESTROYER

Lieutenant Commander Gordon was also commended for his gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland. He was also commended for his gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland.

It was for work in the unglorious days of the collapse of France that Sergeant Anthony Gault, of the 1st Canadian Airborne Division, was commended for his gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland.

TOOK OVER CONVOY

Sgt. Gault, 28-year-old, was commended for his gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland. He was also commended for his gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland.

KNOWN IN CANADA

Sgt. Gault, 28-year-old, was commended for his gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland. He was also commended for his gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland.

SHORT OF TELL

Sgt. Gault, 28-year-old, was commended for his gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland. He was also commended for his gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland.

WOMEN HONORED

Women of the Dominion were also commended in the King's honors list. Among them were Mrs. J. H. Gault, who was commended for her gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland.

IN ENTHUSIASTIC

Women of the Dominion were also commended in the King's honors list. Among them were Mrs. J. H. Gault, who was commended for her gallantry in the sinking of the German submarine "U-107" on the night of January 1, 1941, off the coast of Newfoundland.

First Italian War Captives Are Sent To India

The first Italian war captives were sent to India. They were sent to India by the British government. They were sent to India by the British government.

2,053 Marriages Hit All-Time Record Here But Birth Rate Down

Marriages in this city during 1939 reached a new all-time peak of 2,053, according to Donald Mackie, provincial registrar of vital statistics. This figure exceeds the previous high established in 1930 by 144, the total for that year being 1,909.

Don't upset annual activity was attributed by Mr. Mackie to the war. The conflict, which broke out in 1914, was the "marriage market" exceptionally high during the rest of that year. Stabilization of troops here was many romances blossomed and culminated in marriage. More troops were mobilized and more men went away. Result: More romances and more marriages.

Births also showed a decided upswing in this city during 1940, there being a total of 2,100 as against 2,014 in 1939, an increase of 86.

Mr. Mackie, however, was not greatly surprised with these figures. He had used statistics before and the birth rate in the city was 38 per 1,000 population, while in 1940 it had decreased to 29 per 1,000.

Plans For Banquet

EARL HAY, honorary secretary of the Forty-Niners (Edmonton Regiment), has announced Thursday that plans for the commemorative dinner and banquet will be held at the Macdonald hotel Saturday at 6:30 p.m., on "Forty-Niners Day." He said that high hopes are held for a record attendance.

FORTY-NINERS HOLD DINNER ON SATURDAY

Annual dinner and reunion of the 49th Battalion Association will be held Saturday at 7 p.m. at the Macdonald hotel, when members of Edmonton's famed infantry unit will meet to recall memories of the Great War.

Invited guests include members of the 49th Battalion, who fought in the war. During these difficult times, when so many thousands of people are being sent to the front, the 49th Battalion, who fought in the war, is a reminder of the sacrifices made by the men of the 49th Battalion.

The reunion will be the 25th anniversary of the first recruiting started. Nearly 6,000 went during the battalion during its lifetime.

BUS STOLEN BY SOLDIER: \$100 FINE

RED DEER, Jan. 2.—Before Magistrate T. O. G. Henderson at Red Deer on Tuesday, the Rev. B. S. Clark, Captain, was charged with taking a bus without the owner's permission. He was fined \$100 and costs. He was ordered to pay the military authorities \$100 and costs.

Extension Of Democracy For Trade, Industry Is Urged Here By Churchman

The immediate hope of democracy is to win the war, but the future calls for an extension of the principles of democracy into wider areas of life. Rev. Dr. A. S. Tuttle, moderator of the United Church of Canada and principal of St. Stephen's College, told members of the Rotary Club at a luncheon meeting, Thursday.

"The principles at stake in the present struggle," Mr. Tuttle said, "are not, as some say, imperialistic or economic or for the maintenance or extension of national boundaries. The struggle is a clash between two antagonistic ideas of human rights and liberties and of the origin of truth and the source of morality which constitute the ultimate foundation of democracy."

Therefore he said, this modernism must be revised with all our powers. Otherwise, all that our fathers have struggled for will be lost long ago.

FUTURE HOPE
"The future hope of democracy," Mr. Tuttle said, "is to win the war, but the future calls for an extension of the principles of democracy into wider areas of life."

He continued: "We must not allow a political democracy to be merely in the realm of trade and industry."

EQUALITY
The principle must also be extended into the realm of trade and industry. It is an attempt to create a federation of free men and women, who are willing to sacrifice some of their rights and liberties for a greater, common good for all to have access to raw materials and to the products of the earth on an equality with other nations."

Mr. Tuttle, a member of the club, was chairman of the luncheon.

He was followed by Mr. J. H. Macdonald, president of the club, who said that the club was proud to have Mr. Tuttle as its guest.

Nine Bouncing Babies Born New Year's Day: Only One City Child

Distinction of being the first baby born in this city in 1941 goes to the infant daughter of Mr. and Mrs. Cyril Victor of Villeneuve. Baby Victor, a bonnie wee lass of seven pounds, nine ounces, was left by The Stork at the maternity ward of the Macdonald Hospital at 2:30 a.m. Wednesday.

Baby Victor was the first of a group of nine bouncing babies for which the city's hospital population was increased during the day. Parents of only one of the nine reside here.

Though he lived the Macdonald hospital, Baby Victor was born at home. Baby Victor was born at home. Baby Victor was born at home.

At the University hospital, the one arrival came along rather late in the day at 7:38 p.m. a boy, weighing eight pounds, four ounces, born to Mrs. Perry R. Taggart of 1114 125 street, St. James. The mother, Mrs. Taggart, is a painter with the N.A.R.

In all, nine babies, both mother and child were reported as "doing well."

At the University hospital, the one arrival came along rather late in the day at 7:38 p.m. a boy, weighing eight pounds, four ounces, born to Mrs. Perry R. Taggart of 1114 125 street, St. James. The mother, Mrs. Taggart, is a painter with the N.A.R.

BUS DRIVER IS EXONERATED IN DEATH MISHAP

Jury Finds Martins' Car Skidded—Couple Killed Instantly

Complete exoneration of the bus driver involved in the fatal accident last Saturday in which John Martin and his wife, Edna Martin, of 1100 10th St., were instantly killed was returned in the verdict of a coroner's jury that investigated the crash at the Edward and McBride Ltd. funeral directors on Tuesday afternoon.

The jury found that the couple from 1100 10th St. were driving from a parking space between the city and an adjacent lot at 1100 10th St. when the car skidded and struck the bus.

Evidence of RCMP, coroners was to the effect that the right wheel of the bus hit the car before it could realize it the collision had occurred.

Chief witness, Mr. Martin, driver for the Canadian National bus line, was the chief witness for the defense. He testified that he was driving the bus from 1100 10th St. when the car skidded and struck the bus.

Mr. Martin testified that he was driving the bus from 1100 10th St. when the car skidded and struck the bus.

"They Also Serve..."

The Red Cross Tea Room in Ottawa can host a pretty swanky crowd of waitresses. They're volunteers like the rest of the restaurant's staff and are not for sale. Above, some of them are seen getting orders from a customer.

Auld Lang Syne Is Theme Song For Celebrants As New Year Rung In Here

Wailing sirens, shrieking locomotive whistles, honking horns and thousands of residents joining hands in singing Auld Lang Syne marked New Year's Eve celebrations in this city. Celebrants have even the oldest residents hereabouts witnessed such hilarity as the Old Year departed and the New Year arrived.

In private and in public there were celebrations that even a sudden plunge in temperature could not curb. From 11 o'clock in the evening until the wee wee hours the jolly lasted. Slippery streets made driving and walking difficult for motorists, but nonetheless, most arrived in the home port without mishap.

Coupled with the new year's celebration of New Year's Eve were the traditional New Year's Eve parties. These parties were held in the homes of the city's residents.

Provincial Board To Confer With Spokesmen For Industry

Butter production and prices will be discussed when members of the Provincial Price Spreads Board meet representatives of the butter-making industry at the legislative buildings at 2 p.m. Friday, W. D. King, chairman of the Price Spreads Board, will preside.

Mr. King said that the meeting had been called to advise the industry of the government's position on the butter market.

CITY TO PAY \$4,000 MORE TO HOSPITAL

Arbitration Award Calls For Increase In Charges

The city of Edmonton will have to pay approximately \$4,000 more annually to the University Hospital for hospitalization of city residents under the terms of the arbitration award made public Thursday.

The agreement provides for the deduction from the city payment the amount required to make up the cost of the hospital's services.

FIRE DAMAGES CITY'S LABOR HALL TUESDAY

Firemen Control Blaze With Five Lines of Hose—Small Loss

Damage estimated at "several hundred dollars" was done to the walls, floors and fixtures of the Labor Hall, 1000 10th St., in a fire that broke out at about 8:30 p.m. Tuesday.

The building is a two-story structure and the fire was confined to the second floor premises occupied by the Edmonton Trades and Labor Council and Canadian affiliates of the American Federation of Labor.

Fire department officials expressed the belief that the fire started from a short circuit of electric lights wires, caused by water leaking in through the roof and making the insulated wires short.

Most of the damage was caused by smoke and water.

Building New Castles In Spain

While we run amok in Europe over part of it that does not want more building in Spain. Having been a building project since 1914, the city of Edmonton has been building in Spain for many years.

Lacombe Scores 12-8 Win; Wetaskiwin Beats Stettler

RED DEER, Jan. 2.—(AP)—Lacombe Athletics had the best of a hard scoring spree in a Central Alberta League game at the arena here on New Year's afternoon and outshot Red Deer 12-8. The visitors got away to a good start in the first period and while the locals finally caught up the Lacombe sharpshooters had a little more on the ball in the last third and pulled ahead again.

Colons Take Stettler Imps 4-1

WETASKIWIN, Jan. 2.—(AP)—The Colons took the Stettler Imps 4-1 in a game in Wetaskiwin. The Colons scored twice in the first period, once in the second and once in the third. The Imps scored once in the first period and once in the second.

Two In 25 Seconds

LOS-ANGELES, Jan. 2.—(AP)—Two riders were in the lead in the final race of the 1940 national gelding championship, defeating his opponent, Harry Pratt, by a wide margin.

Mass Battle Dress

LOS-ANGELES, Jan. 2.—(AP)—A mass battle dress was worn in the final race of the 1940 national gelding championship, defeating his opponent, Harry Pratt, by a wide margin.

O'Keefe Gains Four Points In League Scoring Struggle

STARTING with a rush after Eddie O'Keefe drove a penalty shot past Roche early in the first period for the opening goal, Edmonton Flyers hustled their way to a 6-2 win over Turner Valley Oilers in the Alberta Senior Hockey League fixture here Wednesday afternoon.

While the win left the Flyers at the bottom of the standings, they are within two points now of the Oilers and within striking distance of the league leaders.

The club leaves for the Kootenay country over the weekend where league games will be played with Trail, Kimberley and Nelson. It will be two weeks before the Flyers play home again. The penalty shot that O'Keefe scored past Roche early in the first period proved to be the turning point of the game. The shot was awarded the Flyers when Doug Cummins (Edmonton) was fouled and scoring in the net. It was one of the few penalties that have ever been scored here and the first one in the league since the Oilers' shot in the first period.

POWER CLIPS

Two minutes later, O'Keefe took the Flyers into the lead with a second goal during a power play. The Flyers began to build momentum and the Oilers were soon shut out. The Flyers scored twice in the first period, once in the second and once in the third. The Oilers scored once in the first period and once in the second.

INSIDE

Turner Valley, Bown, Fraser, and the Oilers were in a close game. The Oilers scored twice in the first period, once in the second and once in the third. The Flyers scored once in the first period and once in the second.

Cowboys Display High Polish In Drubbing Lethbridge 8-3

CALGARY, Jan. 2.—(CP)—Polishing off their plays in masterful style, Calgary Stampede advanced into a first place tie with Lethbridge in the Alberta Senior Hockey League by scoring an overwhelming 8-3 victory over the Maple Leafs before a New Year's Day crowd of over 4,500 enthusiasts at the arena Wednesday afternoon.

ABOUB MAKES DEBUT

Jack Aboob, former defense star, made his debut as a referee, working with Hank Wylie, "Skinner" Skinner, and the Calgary referees, and giving a good account of himself in the first period of the game.

World-Wide News Pictures By The Edmonton Bulletin Cameramen

Children's Hour

This happy scene shows King George and Queen Elizabeth talking to some of the younger victims of the ruthless German bombardment of Britain. These homeless children come from Battersea Park, one of South London's poorest districts and are being fed at a communal centre. Every London borough council and the council of almost every town in Britain have organized communal centres where food and occasional clothing are provided for the members of families whose homes have been destroyed. They are staffed by members of the Women's Voluntary Service and the food is supplied free to those who cannot easily pay for it. Since the heavy bombardment of Britain's cities began, King George VI and Queen Elizabeth have spent a great deal of time and in expressing their sympathy for the homeless and admiration for their fortitude.

Testing Avro Anson Bombers Built In Canada

Aircraft workers in a Canadian plant are shown, top, completing the assembly of an Avro Anson bomber. A large number of these machines are being used in the Commonwealth Air Training plan for the instruction of bombing crews. One worker is busy in the gun turret while the other stands in the bomb rack making final adjustments. An expert is shown, bottom, giving an Avro Anson a "bouncing" test. This insures that the wiring in the plane is properly connected and that the instruments register correctly. He is testing meters in the bomber-observer's compartment.

Allies In Action Against Italians

The Allied forces in Egypt, including troops from the British Isles, Australia, New Zealand, India, Poland and Free French detachments, are adding rapidly to their extraordinary casualties in Egypt. The role of the Italian force defeated is indicated by the body of a high command and four divisional commanders. Above is a picture of some of the Italian troops being killed during the attack and having difficulty in keeping up with the living forces.

"Booney Man" To Nazi Fliers

Something to scare Nazi fliers is this fantastically bedecked Canadian flier. He is one of the squadrons of top flight fighters from the Dominion who are credited with shooting down more than 70 enemy planes so far in the Battle of Britain, and is shown dressed in his high-flying head-gear, with new type goggles and oxygen mask.

Trains Pigeons For War Service

Miss R. G. Taylor of Britain's Auxiliary Training Service, is shown with two of her feathered pupils of the army pigeon service. Miss Taylor, a holder of wild birds and pigeons, fell right into a job that suited her talents when she was chosen to train the pigeons used by the army for carrying despatches from outposts to headquarters.

"Sergeant Major"

Most Irish Honey, T. "Sergeant Major" of Canada's famous Pioneer Light Infantry Guards, stationed at Ottawa. For a year he accompanied his father, a squadron quartermaster, to Berlin, showing such intense interest he was put on the payroll as regimental mascot.

Swiss President

New president of Switzerland, Dr. Ernest Wetter, above, noted economic progress, recently elected for 1941. He is a leader of Swiss industrial activities and foreign trade negotiations.

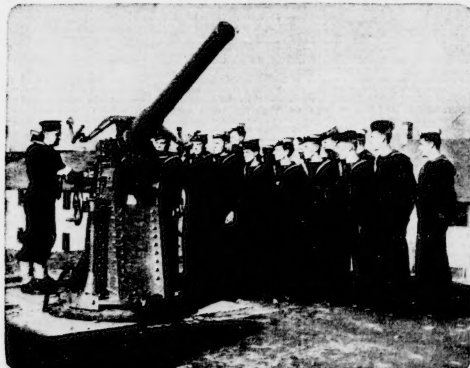

Three Men And A Hat

If you happen to be a son of Mother India, the simple task of putting on your hat is not so simple. The Indian soldier above has the assistance of two comrades in the turban-winding ritual. These are members of a native Indian regiment who were with the British Expeditionary Force in the Battle of Bladon. They came out of the hell of Dunkerque, and now are ready to fight in the Battle of Britain.

Mannheim Smashed By British Bombs

Long-range British bombers flew to Mannheim, important German commercial and trading city on the Rhine, Monday night and for seven hours subjected the city to incessant air attacks. Tons of bombs were dropped and damage of vital importance was effected. Moonlight made the targets easily visible. This is a view of Mannheim in more peaceful days.

Canadian Tars In The Making

As Canada's navy is increased, the demand for trained personnel rises by leaps and bounds. To man the guns of this growing fleet requires men of high technical skill. Here a group of young sailors are being instructed in naval gunnery. The gun is a high-angle 155-millimeter aircraft weapon similar to those mounted on Canadian destroyers.

As R.A.F. Blasted Italian Air Base In Africa

Made from one of the raiding planes of the Royal Air Force, this photo shows British bombs bursting on the air-base of the Italian East African base of Gura. At top of the photo may be seen some of the planes that were caught on the ground. The black smoke marks a hit upon a hangar building.

CHRISTMAS RUSH

By TOM HORNER

Yesterday Jerry called, asking to come home for the Christmas Eve celebration. He said that he had a surprise for me. I told him that I was busy, but he said that he would wait for me. I told him that I was busy, but he said that he would wait for me. I told him that I was busy, but he said that he would wait for me.

CHAPTER IX
DR. CONNELLY turned from the telephone to call Mary's fears. "She'll be all right. She was trained for spending. I'm sure she'll be particularly bright tonight. There's nothing to get excited about. I'll have her home in half an hour."

"What a way to start the New Year," Martha breathed. "I'm sure she'll be all right. She was trained for spending. I'm sure she'll be particularly bright tonight. There's nothing to get excited about. I'll have her home in half an hour."

"It was after 11 when Hugh returned, ushered two cheerful daughters into the house. Weeping had played havoc with Martha's makeup. Her eyes were red and her face was pale. She was crying as she rushed into the house."

"Oh, Mommy, Mommy! I was so terrible. I was arrested!" Martha panted her confession. "At her father's side, Kathleen burst into tears. She was crying as she rushed into the house."

"You didn't have to go to jail," she sobbed. "You weren't arrested and brought up before the judge."

"Even if I had been," Kathleen said. "I would have been arrested and brought up before the judge."

"You didn't have to go to jail," she sobbed. "You weren't arrested and brought up before the judge."

"You didn't have to go to jail," she sobbed. "You weren't arrested and brought up before the judge."

SURVIVORS OF NAZI RAIDERS REACH SAFETY

Nearly 500 Persons Made
Reached On Island Taken
To Australia

SINGAPORE, Jan. 2.—(CP)—Five hundred men, women and children landed by German commerce raiders Dec. 21 on the island of the Bismarck Archipelago have been rescued by an Australian ship and taken to Australia, it was announced Wednesday.

The recent persons included British, French and Norwegian nationalists, there were 19 women and seven children in the group.

Admiral Sir Geoffrey Layton, commander-in-chief of British forces in the Pacific, said the situation was not as alarming as it first appeared as the survivors came from ships over several months and not from a sudden wave of sinkings within the last few weeks.

The passengers and crewmen were taken from the German ship, the Bismarck, which was sunk in the Pacific.

Survivors Tell Of Treatment By Nazis

CANBERRA, Jan. 2.—(CP)—Survivors from 18 merchant vessels sunk by German warships in the Pacific disclosed Wednesday that passengers and crewmen of three vessels are still held captive by the raiders.

Survivors of the weeks that they also were prisoners came from the survivors included 70 women and seven children brought to Australia after they were rescued Dec. 21 on the island of the Bismarck Archipelago.

They said their treatment was good, but rationing was short.

PLUCKY FIGHT

From their German captors the rescued crew learned the story of the plucky fight of the British merchant ship, the Bismarck, before she was sunk on Dec. 20. She had only one defensive gun, mounted high, but her crew kept the fight and did not surrender to the enemy vessel—armed with a number of 10-inch guns—until she had been sunk.

The record survivors said black bread, raw bacon and sausages were the staple diet.

One of the vessels never saw its attacker. She was held in the glare of searchlights while she lay on her back. When the victims of this attack tried to send distress signals the raiders "laughed" and "P" was sent with jargon from their own wireless and immediately being strangled.

The captives and crew taken prisoners were told that if they were

Eight Lives Saved After Bombing

We are presuming that the cat had one of her nine lives as the result of being buried in the debris of her home during an air raid. So we are giving this Tommy cat a new lease on life. It is a happy, healthy, and well-served cat. It is a happy, healthy, and well-served cat.

Prime Minister Calls for Unity of Purpose to Win Battle for World Freedom

OTTAWA, Jan. 2.—(CP)—Liberty through the world "will depend upon labor in the new world." Prime Minister Mackenzie King declared in a New Year's Eve broadcast Tuesday night. Speaking over a national network of the Canadian Broadcasting Corporation, the Prime Minister called upon the Canadian people for an unremitting effort toward victory for the democratic powers.

He appealed to his fellow citizens to enter upon the New Year's resolution to maintain a unity of purpose, of determination and of effort in winning the war which has been from the outset and end, the war of our strength.

Warning that the task in 1941 would be far more difficult than in 1940, Mackenzie King said that the unity of purpose, of determination and of effort in winning the war which has been from the outset and end, the war of our strength.

SURVEY TAKEN TO CHECK ERA OF INFLATION

U.S. Reserve System Proposes Removal President's Power

WASHINGTON, Jan. 2.—(AP)—In an unprecedented move to check any possible inflation of United States money, the Federal Reserve system Wednesday proposed removal of the president's power to issue currency.

The plan would require congressional action to make it effective. The plan would require congressional action to make it effective.

At the federal reserve board, spokesmen said that while the plan is only preliminary and does not imply that there is any immediate threat of inflation, it is a necessary step to check any possible inflation of United States money.
